# AHSAN HABIB

## Full Stack Web Developer

## PROFILE

I'm studying BSC on ICT at Islamic University, Bangladesh. I've been working on learning projects in IT sectors such as Web Development and Networking. I have got my most interest in Web Development. I love python in the case of programming. I'm always excited to find new Experiences and learn new Things in this sector. In my leisure time, I like to read technologies update and listening to music as well as watching movies sometimes. I have some original project plans to make my experience better. I attended several seminars, webinars, and conferences about IOT, Networking, and Web development. I am looking forward to participating in a big project with fresh ideas.
